Normandale Neighborhood Roadway Reconstruction

Dear Resident:

The following is a quick update of the project in your neighborhood:

Northwest Asphalt will not conduct any roadwork Saturday, Sunday or Labor Day, Monday, Sept. 2 except to water the streets. School begins on Tuesday. Stage 1 and 64th street in Stage 2 will remain open for buses. The other streets may experience closures. Please have patience as the buses adjust to the closures they encounter.

Neighborhood Reconstruction Schedule – Stage 1 (Sherwood and Ryan Avenues, and Parnell Avenue north of 64th Street)

Early next week, survey crews will survey the locations of the new utilities. Later next week, crews will begin hydro-seeding disturbed areas. Please watch your front doors for information on the hydro-seeding process and long-term care tips.

Neighborhood Reconstruction Schedule – Stage 2 (Parnell Avenue south of 64th Street and West Shore Drive)

Next week, Northwest Asphalt will continue to install water and sewer services on Parnell Avenue and West Shore Drive. To complete the water service work, the water to your home will be shut off for a short period of time, generally about one hour. The contractor will knock on your door to notify you when this occurs.

The work may cause rust-colored water to come out of your faucets. This is normal and the water is safe to drink, though you should wait until the water is clear again before doing a load of laundry. Flush all your faucets at the same time to remove the reddish color, beginning with the laundry room sink.

The location of the work may cause you to not have access to your driveway. You will be notified accordingly if you are affected. Crews will make every effort to limit the number of times this occurs.
